MESSAGE FROM OUR POTENTATE

The Installation of Officers on January 9th was a successful function, and the feedback was positive for sure. Moslem experienced a two-year absence with not having a large crowd present. Of course, this is due to COVID. Moving forward to a

successful and well attended Unit Director's meeting on January 19, 2022 -Matt Poth, Director of Units and Clubs, had a very

structured agenda and set the tone for what is expected for the coming months ahead.

The Annual Winter Sportsman's Raffle exceeded expectations. It had also been a victim of COVID. The 2021 event was virtual. But 2022 turned out to be well worth the effort, and just under

5,800 showed up for support -an outstanding turnout. Mike

Zelmanski, Past Potentate, Don Kincheloe and the team

produced another fine event. With any luck, the Summer

Sportsman's Raffle will make up the difference in numbers. Be on the lookout for the announcement and ticket sales. Keep the date, August 6, 2022, open in your calendar.

Finally, the Stated Meeting on January 31st at the Diamond Center proved to be a worthy and formidable location for the

Divan and Moslem Nobles to meet. Much was discussed and

decided at this meeting. Vital information was shared, and tough decisions were made. Thank you, Craig Stigleman, Past

Potentate, and Larry Senn, General Chairman, for arranging the venue and handling the logistics.

Tim Lancaster
Potentate

MESSAGE FROM OUR POTENTATE... continued

February 19, 2022 - Saturday: Membership Meeting at Berkley Lodge from 9:00 AM to 11:00 AM. John Young, Membership Chair presiding. Bagels, Cream Cheese, Lox and Coffee will be served. If you wish to attend, please contact John (248) 496-2740. Your participation is welcome.

February 26, 2022 - Sunday Afternoon: Spaghetti Dinner at the Crystal Bar & Grill (Uncle Ray's) 8051 Middlebelt Rd., Westland from 2 PM - 5PM. Spaghetti, Salad, Garlic Bread & Dessert. 50 SO and "Share the Wealth". Beverages & Happy Hour prices.

Bring the whole Family. You will not be disappointed! A true value at \$10.00 ages 15 and over - \$5.00 ages 14 and under. See Flyer. A Shrine and LOS Event!

March 10, 2022 - Thursday: Red Wings Game - Shriners Night at the LCA Please join us as we have great seats available (all in the lower bowl). We will be altogether! Meet at the Bus Garage in Clawson if you like, for transportation to the game.

Refreshments from 4:00 PM - 5:45 include brats, chips, and other goodies. Shriners and their families welcome, as well as guests. Tickets \$65.00 and can be purchased through the Shrine Office. (248) 536-2900 - Ext. #1 See Flyer

March 12, 2022 - Saturday: Who Wants To Get Lucky? Another exciting time. Eagles Hall 24401 5 Mile Rd., Redford. More than 100 Valuable Prizes. See Flyer for more details.

DIVAN 2022

**TIM LANCASTER
POTENTATE**

MESSAGE FROM OUR CHIEF RABBAN

Hello Nobles,

If you had the chance to be at Ill Sir Tim Lancaster and lady Sue,s Installation you were to be at Moslem's very first event of the year. Congrats again Tim , I am looking forward to being your Chief Rabban for 2022 and being part of Shriners 100yrs of Hospitals and 150 yrs of Shriners and being part of a great things that we have been doing in all that time and in the future.

Frank Dougherty
Chief Rabban

By the time this is read we will already attend our first stated meeting and the plans for next 2022 have been presented along with the budget for 2022 hopefully you were all there to attend as the stated meetings are a staple for the Nobility and Divan to meet and talk.

Its another year with covid and a year without a place to call home, your Divan will continue to search for a new place, when that does happen lets face it some of your are not going to be happy because it's farther then you approve. When we do find a location it is always brought before the nobility for your approval as we as Divan represent our Nobility and work for you.

In closing, I would like to say to all of you please contact me with any concerns or questions. I may not have the answer right then but I will do my best to find the answer and contact you ASAP.

YITF

Frank (Chum) Dougherty

Cheif Rabban Moslem 2022

MESSAGE FROM OUR ASSISTANT RABBAN

To be a Shriner you need to be committed to helping ensure the betterment of Shriners Hospital for Children. Our Hospitals are a network of 22 non-profit medical centers for children with orthopedic conditions, burns, spinal cord injuries, cleft lip and palate and receive care regardless of the patients' ability to pay. We must be willing to put in the time and effort to help these children that cannot help themselves. Everything we do and everything we represent is to ensure this philanthropy continues to survive.

Marty Opeth
Assistant Rabban

As we all know, Moslem Shriners need a new home. The Divan is actively working on finding or building a home that retains our current membership as well as attracting new members. In order to afford a new home, we need to have a balanced budget and make all our events profitable. Our Divan has a strong business background and fine leadership skills. Our plan is to obtain input from the Nobility and pursue all options. As always, it will come down to a vote by the Nobility. We will present as many options as possible.

Remember, all Nobles of Moslem Shrine need to contribute their time and effort for our future. We need the Nobility to volunteer and be an active part of our upcoming events. When you volunteer or attend our events, you are helping Moslem to survive which means our Hospitals survive and we continue to help our children in need.

The Divan is committed to make Moslem financially sound. We will cut unnecessary expenses to ensure a bright future. At the present time, we have leased office and storage space in Novi saving thousands of dollars per month. The phone number is the same (248-569-2900) and the new address is Moslem Shriners, 46850 Grand River Avenue, Novi MI 48374. The location is just West of the Showplace. For 2022, we have been offered by the Showplace to hold non-profitable Divan, Unit and Club meetings there. Call the office for more details in regards to availability.

Yours in Faith

Marty Opeth

Assistant Rabban 2022

Moslem Shrine

MESSAGE FROM OUR HIGH PRIEST AND PROPHET

Nobles all,

I'm not sure about you, but I have been feeling some very positive vibes around the Shrine lately, and it's becoming contagious!

As we move into this new year, we are collectively getting the chance to catch our breath after a couple years of changes within our own house, and some not-too-popular national emergencies that just a couple years ago, no one would have ever predicted.

The move out of Southfield was a PITA but a necessary one that has opened options to us in ways that will allow Mighty Moslem to stay strong and grow well into the future, but it's going to take continued hard work and dedication from everyone!

Just think about what we have accomplished together in (2) of the worst years I can remember (all pandemic-related). We were virtually shut down in 2020 and just started to gain traction again in 2021. Our 2020 Pote Ray and his Divan kept Moslem together in a year that frankly no one had a playbook for. Following Pote Ray, 2021 Pote Mike and his Divan stepped up to take over the reigns as the challenges mounted, and in the end, I believe we all came out on the winning end when (again) the changes and challenges that presented themselves to the Nobility were something none of us could have seen coming.

Recently, I enjoyed the opportunity to sit in on the first meeting of the year with our Pote Tim, the Unit Directors, and a few of our great PP's. Just by the turnout, I can tell you the passion and the love of Moslem Shrine and what we do left me impressed, inspired and never questioning the loyalty of each of these great Nobles and I can tell you without hesitation that we are in good hands.

As members of Moslem Shrine, we all have work to do! Sure, we need to recruit new Nobles, but we also need to make extra efforts to retain the great Nobles we already have. I also believe that we need visit and educate our Masonic Lodges. Let's call that simply "re-acquainting" them with who we are and what we're all about. We must work towards mending any fences (that may need mending) and to rebuild our unified strengths and synergies that are so vital to us all.

If you've read this to this point, (I hope you did)...I want to ask you to ask yourselves this question; What can I do to re-engage and to help Moslem grown and become better?

I know what I did, and it was all because someone reached out to me and re-engaged me. I knew that if it was going to be, it was up to me because Mighty Moslem, the hospitals we support and especially the children and their families that we have so many, positive, life-changing effects on are worth every effort we can put into this!

Now, I'm reaching out to reengage YOU...please join me and let's continue to play so our children may!

S&F

Gary Lewandowski

High Priest & Prophet – 2022

"As iron sharpens iron, so friends sharpen friends"

Gary Lewandowski
High Priest and Prophet

From the Desk of the Recorder

Robert Pate PP
Recorder

Fraternal greetings to the Nobles of Moslem Shriners.

For February I thought I would review the bylaws of Shriners International that covers Temple Units.

Article 36

Temple Units

§ **336.1 Control by Potentate.** The units are a part of the working corps of the temple and are under the control of the Potentate and must be composed wholly of Nobles.

§ **336.2 Public Exhibitions and Civic Parade.**

(a) **Shriners Only.** Notwithstanding the provisions in §335.11, in parades of temples at annual Sessions of Shriners International, unless written dispensation is received from the Imperial Potentate for the annual Session during his term in office, or in local Shriners parades or exhibitions under the auspices of temples or Shrine associations, only Nobles shall participate.

Amend. 2017

(b) **Civic Parades.** In civic parades, and non-Shrine public appearances, Nobles, their ladies and children, and Masonic related or sponsored organizations, may participate, with the approval of the Potentate. Only Nobles may perform, compete, ride vehicles with fewer than four wheels, or operate any vehicle while parading.

(c) Notwithstanding the provisions of (a) and (b) above, in those situations where a specific license is required by a state, due to size, weight or passage carrying capacity of a vehicle to be used in a parade, and should there be no member Noble property licensed to operate said vehicle, the temple may hire a properly licensed driver with proof of proper insurance required, and verify that the driver has an acceptable driving record according to any applicable insurance carrier(s). This drive must be added to the insurance policy, and accepted by the insurance company, prior to his/her operating any vehicle on behalf of the temple.

Add. 2019

(d) **Potentate Approval.** No temple unit is permitted to participate in parade or public exhibition without the express approval of the Potentate.

(e) **Outside of Jurisdiction Approval.** Public appearances by units are under the auspices of the temple with which they are identified and are not permitted in any place outside the temple's jurisdiction except with the consent of the Potentate of the temple having jurisdiction.

(f) **No compensation.** Units and their members are prohibited from accepting any reward or compensation for participating in parades and exhibitions.

Amend. 2013

(g) **Musical Groups.** In civic parades and functions, Shrine musical groups may, with the approval of the Potentate, allow guests musicians to participate. The guest must be distinguisher from the Nobles in dress.

Add. 2016

§ **336.3 Financial Reporting Requirements.** Every temple unit must, at the end of each calendar year, complete the Report of Shrine Clubs and Temple Units form, which is available from the Imperial Recorder, and file it with the temple recorder before the first day of February following the end of the calendar year.

CHILDCARE

Nobles All - Greeting

From time to time, I am questioned about what Shriners Hospitals for Children can or cannot treat. I have attempted to compile a very comprehensive list.

Since our first hospital opened its doors in 1922, providing care for pediatric orthopaedic conditions has been a foundation of Shriners Hospitals for Children. We can help children with essentially any orthopaedic condition, other than an acute trauma.

Orthopaedic Care

Shriners Hospitals for Children is dedicated to providing medical and rehabilitative services to children with congenital deformities and conditions, problems resulting from orthopaedic injuries, and diseases of the neuromusculoskeletal system.

Innovative treatment and therapies

The majority of our locations provide pediatric orthopaedic care. Commonly treated conditions include:

- Clubfoot
- Hand disorders
- Limb deficiencies/discrepancies
- Legg-Calvé-Perthes disease and other hip disorders
- Scoliosis (curvature of the spine)
- Osteogenesis imperfecta (brittle bone disease)
- Juvenile idiopathic arthritis
- Orthopaedic problems associated with cerebral palsy and spina bifida
- At 12 of our locations, the orthopaedic physicians and clinical staff have access to motion analysis centers. These high-tech facilities use a system of reflective markers, high-speed cameras and computers to develop a model of a child's walking pattern that can provide data to assist the medical team in recommending the best treatment plan.

Pediatric Orthotic and Prosthetic Services, LLC

In addition to innovative treatments and therapies, several Shriners Hospitals for Children have in-house pediatric orthotic and prosthetic services (POPS) departments. The POPS teams fabricate custom-fit devices in kid-friendly environments. Collaborating closely with physicians, nurses, and occupational and physical therapists, the best possible outcomes are achieved for their patients.

Services to support optimum health and independence

Our goal is to help each child become as healthy and independent as possible. We are dedicated to providing a complete range of appropriate medical and rehabilitative care to achieve this objective, including surgeries; physical, occupational and recreation therapies; and orthotic and prosthetic services.

At Shriners Hospitals for Children, each patient receives an individualized care plan incorporating the full range of needed multidisciplinary services, always incorporating the patient and family's goals and addressing their concerns.

Burn Care

The Shriners Hospitals for Children locations that specialize in burn injuries have been leaders in burn care, research and education since opening in the mid-1960s. Thanks to the cutting-edge medical care provided at these hospitals, thousands of children have a greater chance of surviving from all types of burn injuries every year.

Burn care and other specialized services

The Shriners Hospitals specializing in burn care provide critical, surgical and rehabilitative care to children with varying degrees of new and healed burns. Each state-of-the-art hospital is staffed and equipped to provide

CHILDCARE ... continued

reconstructive and restorative surgery for healed burns, as well as treatments for various other skin conditions. Three of our four locations that provide burn care also treat cleft lip and palate.

The range of treatments needed by patients with burn injuries can include skin grafting procedures, continuous enteral feeding, infection control and procedures to lessen the effects of scarring. In addition, aggressive rehabilitation is typically necessary, including therapy to improve range of motion, and the use of specially fitted garments, splints and other orthotic appliances to improve the patient's ability and appearance. Once a patient has recovered sufficiently to return to their homes and communities, Shriners Hospitals for Children helps to ensure a smooth transition through its readjustment and re-entry programs.

The medical staff at Shriners Hospitals for Children is renowned for their expertise in critical care, particularly in techniques that may help save the life of a patient with severe burn injuries - such as fluid resuscitation, management of smoke inhalation, early excision and skin grafting, and management of increased metabolism.

Since Shriners Hospitals for Children entered the burn care field, the survival rate for children with burns over more than 50 percent of their body surface has doubled. In addition, today, patients with burns over 90 percent can survive, and go on to lead full, productive lives.

Spinal Cord Injury

Each year 12,000 new cases of spinal cord injury (SCI) are reported throughout the U.S. Approximately 10 percent affect children under age 16. In the mid-1980s, Shriners Hospitals for Children established the nation's first SCI rehabilitation programs specifically designed for children and teenagers.

Innovative care contributes to recovery

At Shriners Hospitals for Children, an interdisciplinary team of surgeons and other physicians, therapists, therapeutic recreation specialists, psychologists, social workers and dieticians work together to provide individualized, comprehensive care plans for our patients with SCI. In addition to providing treatment, our staff works with the patient's family members to help them understand the social, emotional and developmental implications of an SCI to help ensure the best possible outcome for the child, including the ability to have a full, productive life.

Innovative therapies offered at Shriners Hospitals for Children include body-weight supported manual treadmill training or robotic treadmill training with the Lokomat, a device that automates movement therapy and improves the efficiency of treadmill training in patients with neurological movement disorders, such as spinal cord injury. Both of these therapies provide weight-bearing opportunities and can help stimulate muscles and build strength and stamina.

Our programs also offer functional electric stimulation (FES), which is a sophisticated, computerized system that sends small doses of electrical current to peripheral nerves, stimulating paralyzed muscles. FES can be used with specialized bikes to provide an opportunity for exercise.

We also emphasize activity-based rehabilitation, including aqua therapy, pet therapy and adaptive sports. These activities also increase strength and stamina and enhance social interaction, confidence and independence.

Emphasizing independence and confidence

In addition to exercise and therapy efforts, we offer a range of experiential programs designed to increase independent living skills, build confidence and strengthen self-esteem.

The health care system's SCI program is designed to provide the complete range of services needed to ensure patients recover to the greatest extent possible.

CHILDCARE ... continued

Cleft Lip / Cleft Palate

At Shriners Hospitals for Children, patients with a cleft lip and/or palate are treated by a multidisciplinary group of specialists who work as a team to improve the child's appearance and their ability to eat, breathe and communicate. Each patient's unique treatment plan may include surgery, orthodontics, hearing, speech and psychological therapies, along with specialized support. The goal of the Shriners Hospital treatment program is to help each child achieve optimal function, improve their facial appearance to the fullest extent possible and restore their self-esteem.

Cleft lip and palate deformities are one of the most common birth defects in the U.S., occurring in approximately one of every 600 births. Clefts occur when the tissues that form the upper lip and roof of the mouth fail to join together before birth. Cleft deformities vary in size and because the lips and palate develop at different times, it is possible for babies to be born with a cleft lip only, a cleft palate only, or both. The condition is associated with alterations in oral function including eating, speaking and hearing due to problems with growth and structure of the face. Cleft lip and palate is corrected by reconstructive surgery in conjunction with multidisciplinary therapies. Cleft lip and palate is a common and serious condition. Shriners Hospitals for Children is committed to improving care for children with this condition through a comprehensive, coordinated program of clinical excellence, education and research.

Care for cleft lip and/or cleft palate is currently available at nine Shriners Hospitals for Children. Available multidisciplinary services include surgery, orthodontics, hearing, speech, psychological therapies and additional support services. Services may vary at different locations.

Our mission

Shriners Hospitals for Children has a mission to:

- Provide the highest quality care to children with neuromusculoskeletal conditions, burn injuries and other special healthcare needs within a compassionate, family-centered and collaborative care environment.
- Provide for the education of physicians and other healthcare professionals.
- Conduct research to discover new knowledge that improves the quality of care and quality of life of children and families.

This mission is carried out without regard to race, color, creed, sex or sect, disability, national origin, or ability of a patient or family to pay.

Our vision

Become the best at transforming children's lives by providing exceptional healthcare through innovative research, in a patient and family-centered environment.

Should you have any questions regarding Shriners Hospitals for Children and or treatment provided, feel free to contact me at 313 806 9475 or by e-mail at lpsc2004@yahoo.com

Until we meet again.....
